

SMT 08.-10.06.2010

Please come to see us at our booth 9-322!

Europe's no.1 special interest event for System Integration in Micro Electronics! The highly qualified audience from over 50 countries will present the latest trends and developments as well as up-to-date solutions from design and development to PCB production, components, packaging and test systems.

We would like to invite you to discuss the challenges of your next projects and find adequate electronic Solutions.

We look forward to meet you!
